WORK EXPERIENCE

Front End Developer

Feb 2022 – Feb 2023

 **CFT Labs, Jaipur**

- Developing new features and user interfaces for social platforms and e-commerce websites using web and mobile technologies.
- Ensuring the best performance and user experience of the web and mobile applications by writing clean, readable, and testable code.
- Troubleshooting and debugging any issues that arise in the web and mobile applications and fixing them in a timely manner.
- Cooperating with back-end developers, designers, and other team members to deliver well-architected and high-quality solutions that meet client requirements and expectations.
- Staying up-to-date with the latest trends and technologies in web and mobile development and applying them to improve the existing products or create new ones.

- Assisting other students to complete their college projects using various emerging technologies such as web development, mobile development, cloud computing, etc.
- Providing guidance and feedback to the students on their project design, implementation, testing, and documentation.
- Collaborating with the ANSH InfoTech software consultancy and IT education company to learn from their expertise and experience in the field of development and corporate and individual trainings.
- Developing and enhancing your own skills and knowledge in various software domains and tools by participating in the ANSH InfoTech internship program2.

PROJECTS

Docplus
